

# CALL FOR PAPERS

## PhD Workshop on Empirical Microeconomics (WEM) *Advances in Causal Inference Methods*

8 – 9 April 2025

Martin-Luther-Universität Halle-Wittenberg

We invite PhD students to participate in a workshop dedicated to research in applied microeconomics using causal inference methods. The workshop aims to foster an interactive environment for idea exchange, networking, and collaboration among emerging scholars and established researcher. We welcome submissions of research that leverage **causal inference methodologies across a broad range of micro-economic topics**. Participants will have the opportunity to present their research through oral presentations or posters. Each paper presented will be assigned a discussant to provide constructive feedback. In addition, two keynote speakers will offer insights into the latest advancements in causal inference techniques. There will also be time slots for 1:1 discussion with the keynote speakers.

### Keynote Speakers

**Kamila Cygan-Rehm (TU Dresden, Germany)**

*Professor of Quantitative Methods, esp. Econometrics*

**Martin Huber (Universität Freiburg, Switzerland)**

*Professor of Applied Econometrics and Policy Evaluation*

### Deadline for submissions

6 January 2025

### Notification of acceptance

Start of February 2025

**Full papers or extended abstracts can be submitted as a pdf file via the website**

<https://wem-halle.github.io/>

### Participation fees

There are no participation fees for the workshop. However, participants are responsible for covering their own travel and accommodation costs. We are grateful for financial support by insitu e.V.

### Scientific Committee

Dr. Eva Dettmann (IWH) Dr. André Diegmann (IWH), Dr. Theresa Neef (IWH), Prof. Dr. Lena Tonzer (Magdeburg, IWH), Prof. Dr. Simon Wiederhold (MLU, IWH), Prof. Dr. Christoph Wunder (MLU), Prof. Dr. Amelie Wuppermann (MLU)

### Organisation

Katharina Kolb & Sachintha Fernando (Chair of Econometrics and Empirical Economic Research, MLU)
